

# SunnyDew®

## Add More Flavor to Life

The main ingredient in SunnyDew® is stevia, an herb indigenous to South America and used by its inhabitants and Asians for centuries as a dietary supplement. Containing zero calories, the natural extract from the leaves of the stevia plant makes an excellent flavor enhancer. SunnyDew® can be used as a supplement to help maintain a normal blood sugar level.\*

Sunrider is an early innovator in the manufacturing and marketing of products that contain stevia and has helped popularize its use in many countries. In April 1995, Sunrider successfully petitioned the U.S. Food and Drug Administration (FDA) to lift the import alert on the extract of stevia leaves, thereby clearing the way for the use of stevia as a dietary supplement in the United States.

Unlike other stevia products, SunnyDew® is made from stevia that undergoes a unique purifying and concentration process that preserves the natural structure of the stevia plant in its whole food form. Sunrider's innovative extraction process is able to harness the sweet-tasting component of the stevia plant while getting rid of the aftertaste.

Use SunnyDew® daily to add healthy flavor to your life.

### Owner Expertise

Researched, developed, and made by Sunrider in Southern California.

### Philosophy of Regeneration®

Unique purifying and concentration process preserves the natural structure of the stevia plant in its whole food form.

### Concentrated Formula

Just a few drops are needed to enhance the flavor of foods and drinks.

### Diet Support

Contains zero calories.

### No Bad Stuff

All-natural flavor enhancer with no chemicals.

### Fits Your Life

Easy to carry and supports a healthy diet.
