VitaSpray®

The Efficient Vitamin B12 Supplement

Each spray of this herbal complex provides 200% of the recommended daily value of vitamin B12 with a proprietary blend of herbal extracts and minerals, including citrus bioflavonoids, luohan guo, biotin, calcium, potassium, zinc, iron, selenium, and more.

Available in spray-form only, this method of delivery helps ensure greater absorption of the vitamin B12 and other nutrients found in this herbal complex.

Why we need vitamin B12:

- Maintain optimum health.
- Support metabolism functions.
- Promote red blood cell formation.*
- Address the central nervous system.*
- Help boost low energy levels.*

Because vitamin B12 primarily comes from animal products such as eggs, meat, poultry, shellfish, and milk, people following a vegetarian or vegan diet are more likely to require B12 supplements. Others who may require B12 supplements are those over 60, because deficiency increases as we age, those with absorption problems, and those with less than ideal gastrointestinal health.

VitaSpray® is also handy for people who have difficulty swallowing tablets and capsules.

"VitaSpray® is absolutely one of my favorite Sunrider® products. As a Professor of Nutrition, I realize the importance of B vitamins and especially B12. Vitamin B12 helps in maintaining the health of the nerve cell and the nervous system. Vitamin B12 is also needed for the synthesis of the red blood cells. B12 has been found to be very much needed for the growth and development of children. My children use VitaSpray® daily to help keep them focused and alert at school. It is easy to use and fast acting. As a nutritionist, I look for the best products for my clients and VitaSpray® is the best vitamin B12 spray on the market. It is a brilliant product with fabulous results."

Framingham, MA

"My husband and I carry VitaSpray® with us everywhere we travel—he loves it as part of his Sunrider 'jet lag' tool kit. Our granddaughter enjoys a spray under her tongue before and after school, and I also recommend it to my Sunrider customers and Reiki clients. They feel the difference immediately!"
